The Daily Standard. Monday, September 19, 1870. War Mews Summary.

Two wars are going on in Europe, on a consequence of the other. One is between France and Prussia; the other is between Victor Emanuel and the Pope. The latter don't seem to excite much interest out of Italy. The opinion of European States seems to be that the Papal States must become part of the new Kingdom of Italy, and that intervention on their part to preserve the integrity of the Reclesiastical States is useless. The telegram that His Holiness had gene to England has not been confirmed; but the last news says that he had left Rome. If that be the case, he has in all probability virtually abdicated. A few days hence will bring news con-firming the occupation of Rome by Victor Emmanuel, and that the Papal States have voted to be joined to Italy. In France the Provisional Government seems to be well sustained, both in Paris and in the Provinces. If such should ontinue to be the case, the restoration of Napoleon or the establishment of an Orleanist on the Threne is hopeless.

The present Government is but provisional, but it is expected that elections

H. SC., having opened the above premises hopes by will be soon held to establish a regular government. The French desire peace still on honorable terms; but the attitude of King William seems to be hostile to peace unless Alsace and Lorraine are handed over to Germany. England seems to have decided not to interfere in any way; not even to make a peace proposition on behalf of France. The neutral continental powers appear equally inactive. This state of things very naturally makes Prussis more exacting in her demands on France; and indicates a disposition to make the French assent to terms at the point of the bayonet. To make FIVE GRADE SHORTHORN BULL CALVES that policy successful the Prussian army is steadily approaching Paris, and may TWO do TWO do now be said to be under its walls.

Evidently the Franch are preparing The above significantly in the state of the same preparing The above significant to the same preparing The above significant to the same preparing Two do not be said to be under its walls. for a siege, but the Provisional Govern-ment is likely to go to Tours with the Foreign Ministers, and thus escape the lity of a similar fate to that of the Emperor in Sedan. Gunboats have arrived in the Seine from Tonion, evidently intended to play a similar part to that of the American gunboats on James River, below Richmond. The removal of the Government to Tours, near the centre of France, will place it under the protection of the immense army that is gathering on the banks of the Loire, which is said to be five hundred thousand strong, whilst a million more men have volunteered in all parts of France to assist them. | CROSSLYS! SUPER TAPESTRY and Strasbourg, Pfalsburg, Toul, Sedan, Metz, Soissons, and other fortresses, still hold out; but while they occupy the attention of strong forces of Prussians, the advance on Paris still continues, The original plan of the campaign, as sketched in the ontstart by Prussian Generals—that is, the capture of Paris—is still rigidly adhered to; and gives color to the statement that King William will not make peace except in Paris
Prussia, however, is becoming unpopular
in Europe. In England, Italy, Belgium
and Spain there have been demonstrations in favor of France; whilst the United States and Portugal have for-mally recognized the Republic. If Prus-sia persists, the sentiment of the world will soon be as much against her as it will soon be as much against her as it was against Napoleon a short time ago, for his apparently reckless declaration of war. The Republic has offered all that could be expected for peace. She has proposed to indemnify Pressia for the expenses of the war; to dismantle the frontier fortresses, and reduce the army. The refusal of the Provisional Government to grant more is justified by popular sentiment, both in Europe and America. The next news that we may expect in a series of battles in front of Paris. is a series of battles in front of Paris,—with what result is uncertain.

MAGIC SOAP.

Directions for Using Robinson's Magic Soap for doing a Large Family Washing in Two Hours, of Five or Six Dozen Pieces. 1. Cut up fine a bar of the Soap, and put one-half of it into your boiler with sufficient water to cover well your white clothes to be washed, and let the Soap dissolve; then put your clothes in, stirring them, and let them just come to a boil; then pour out clothes and water into a tub and let them soak twenty or thirty minutes, stirring them round in the tub occasionally to loosen the dirt. Sach articles as collars, wristbands or any ar icle very dirty, should be rubbed through the hands a little while soaking in order to thoroughly loosen the dirt before boiling.

2. While your clothes are soaking put the other half of your cut Soap into your boiler, with sufficient clean water to boil, and let it be heating. After your clothes have soaked wring them out well and put into your boiling water, and let boil from 5 to 10 minutes; then rinse, blue and hang out to dry. If the above directions are followed, we will guarantee your clothes lean and white.

3. For your colored and woollen clothes use the same

ETHE TEACHERS OF THE PUBLIC SCHOOL for Victoria City and District, finding it impossible to continue teaching, in consequence of non-payment of the monies due to us for services, are rejuctantly obliged to close the School till such time as proper provision shall be made for punctual payment of our salaries.

Eighteen months have elapsed since the New School Ordinance became law, during which time we have only received from all sources six months' pay, We deem explanation necessary under the circumstances; and believing that a discriminating public will not censure us for taking a step which is unavoidable.

JOHN JESSOP, white.

3. For your colored and woollen clothes use the same water you soaked and boil your white clothes with, only heating it up again, and peur it over your colored and woollen clothes, and let soak the same as your white clothes, also rubbing them through your hands while soaking, if very dirty. Then rinse in clear water, warm a- your hands will bear, and you will thus accomplish a large washing in two hours.

By cutting up a bar of this Soap into two gallons water, and let boil until thoroughly dissolved, and then leave to cool, you will have two gallons of beautiful SOFT SOAP, as good as Common Soap for general house purposes. S. ROBINSON & R. J. MCDONELL.
